

# Iron Academy Interviewing Candidates: Middle/High School STEM Teacher

We are looking for a Great-Commission STEM teacher to join our discipleship community to begin in August, 2024. For the effective, engaging, experienced, and dynamic sister or brother in Christ who is especially gifted in making young men love God's sciences, we have an extraordinary opportunity.

The ideal candidate will have:

- Two or more years of results-rich teaching experience
- Strong history of—and capacity for—discipling young men, and the energy and grit to engage fully in a discipleship community
- Bachelor's degree or beyond in Biology, Chemistry, Physics, or a related field
- Exceptional classroom management skills
- Ability to make rigorous learning appealing to young men
- Articulable calling to Iron Academy's unique mission and vision
- Deep understanding of best practices in STEM education
- The capacity and desire to work in a close-knit team environment
- Capacity to add value as we build the finest STEM department in North Carolina
- Ability to interact professionally with parents and school-community members

Qualified and interested candidates should send a resume and cover letter via email to [randerson@ironacademy.org](mailto:randerson@ironacademy.org) and [hahn@ironacademy.org](mailto:hahn@ironacademy.org). The cover letter should communicate clearly why the candidate feels called to Iron Academy in general and to this position in particular.
